We attended the analyst meet of Power Grid. The management continued to remain confident about the company's healthy execution, high capitalization and highlighted that risk of equity dilution remains low. We maintain 'BUY' on the stock.

- Execution to remain strong:** Power Grid has capitalized assets worth Rs67.6bn in H1FY13 (v/s Rs40bn in H1FY12) and Rs71bn till date. The capitalization in Q2FY13 was slightly slower at Rs26.9bn on account of heavy rains impacting execution. The company has spend capex worth Rs71.7bn in H1FY13 (v/s Rs46.1bn in H1FY12) and Rs87.5bn till date against a target of Rs200bn for FY13 (42% of target spend). In H1FY13, Power Grid has added 26778MVA transformation capacity v/s 31475MVA in FY12. Mr. Nayak, CMD, reiterated that there would be no equity dilution for capex target in the 12th plan.
- New Initiatives: 1) JV with States - 12th plan** Intra-State Transmission capex is likely to be ~Rs550bn. PGCIL is looking at this as an additional avenue for growth. It has already signed agreements with Bihar & Odisha and discussions are underway with Jharkhand, UP, J&K, Haryana and Manipur 2) Backward Integration DPR for conductor/tower parts manufacturing is in the finalization stage and JV for manufacturing transformer and insulators are being pursued 3) Energy efficiency utilizing existing pool of qualified EA & 4) The company has applied for Wire Business license for identified Districts in Odisha.
- Major reasons for recent grid failure :** The recent grid disturbances was caused by combination of factors such as weak inter-regional corridors due to multiple outages, high loading of some links, overdraw by some of the NR utilities, inadequate response by SLDCs to the instructions of RLDCs to reduce overdraw etc. Major action taken after grid failure includes tightening of frequency from 49.5Hz to 50.2Hz to 49.7Hz to 50.2Hz. Independent Third Party Audit & Inspection of Protection Systems by RPCs. Restriction imposed on unscheduled drawl.
